## POLICE OFFICERS GIVEN INCREASE IN SALARY

### Webb, Fairmount Home Head, Dismissed

#### STARK PROSECUTOR PROBING CHARGES AS OFFICIALS ACT

Commissioners Of Stark And Columbiana Fire Superintendent.

#### COUNTER CHARGES BROUGHT BY WEBB

Incompetency Charged By Officials; Meddling Webb's Charge.

Canton, Nov. 5.—Prosecutor C. B. McIntock today started an investigation of charges and counter charges against E. B. Webb, superintendent of the Fairmount Children's Home, and the board of trustees of the Fairmount Children's Home, after a dismissal last night of Webb by the commissioners of Stark and Columbiana counties.

Webb is charged with inefficiency and incompetency and on the other hand he makes counter charges that discipline has been interfered with in the home by meddling on the part of the trustees.

Webb, about a year ago, was convicted of assault and battery in connection with the horse whipping of William S. Shaw, was sentenced to 60 days in the workhouse and was pardoned by Gov. Donahay on the day he was to have begun serving his sentence.

He was restored to the superintendency of the home but constant friction has occurred ever since between Webb and employees at the home.

James R. Milner has been placed in charge of the home, pending the probe by Prosecutor McIntock.

Alliance, Nov. 5.—"I have nothing to say," was the answer made by E. B. Webb, superintendent of the Fairmount Children's Home, when queried concerning his action on the request made by the home board of trustees that he tender his resignation.

The request for Webb's resignation is the second made by the trustees in the past ten months. The last one came Monday during a meeting of the board. The first was made last February when the board was reorganized following the death of C. Y. Kay, former chairman.

Mr. Webb flatly refused to resign at the first request and from all indications he will fight this new demand to the last ditch. Mrs. Webb, matron of the home, said this morning, "We are not through yet by any means."

"Let the trustees do the talking for the present," Mr. and Mrs. Webb added in unison as a final statement, "but we will have plenty to say before the matter is settled."

#### Take Fifty Stitches In Wind Pipe

Washington, Nov. 5.—Ernest Wright, 35, negro, may wheeze a bit for the rest of his life, but physicians at the Emergency hospital today were confident he would recover.

They performed on Ernest last night one of the most remarkable operations on record—taking 50 stitches in a severed windpipe.

Ernest and his "lady friend" had an argument with a pair of razors. Ernest lost. He was rushed to the hospital near death from loss of blood and strangulation.

The doctors put him on the table, ran a rubber tube down his throat to serve for a windpipe, gave him ether through it, and then took the 50 stitches. The rubber tube will serve as an emergency windpipe until the wound heals.

#### SENATOR WHEELER ASKS HIGH COURT TO DISMISS CASE

Acquittal In Similar Case Ends Conspiracy Count Says Senator.

Washington, Nov. 5.—Senator Burton K. Wheeler, (D) of Montana, today asked the supreme court of the District of Columbia to dismiss the indictment against him charging conspiracy to defraud the government in securing oil and gas land permits in Montana.

Indicted with Wheeler were Edwin S. Booth, formerly solicitor of the interior department, and Gordon Campbell, Montana oil operator.

His acquittal in Montana last April of charges of misusing his senatorial office to gain favors at the interior for Campbell was sufficient ground for the court to throw out the present case, Wheeler said. He demanded freedom from trial on charges of which he has already been held not guilty by a jury.

The crime of which he was freed in Montana and the crime alleged in the conspiracy indictment "are one and the same," and the transactions held to be illegal in each are identical, said Wheeler's demurrer, filed by his counsel, Senator Thomas J. Walsh, (D) of Montana, Arthur Garfield Hays, New York, and Charles A. Douglas, Washington.

Walsh, prosecutor of the Teapot Dome inquiry, defended Wheeler in Montana. Hays was of counsel for John T. Scopes in the Tennessee revolution trial.

Aside from the plea of former acquittal, Wheeler attacked the indictment itself, charging a number of alleged irregularities.

#### Union Thanksgiving Service Is Planned

#### New Zealand Voters Defeat Prohibition

Wellington, N. Z., Nov. 5.—Prohibition has been defeated in New Zealand, incomplete returns today indicated.

#### Self-Confessed Teetotallers Practicing What They Preach

Baltimore, Md., Nov. 5.—Prohibitionists practice what they preach. They do not vehemently denounce liquor and then sneak away and take a drink when everybody's back is turned.

These statements came today from a symposium of several hundred college presidents, physicians, large employers of labor, judges and statesmen. The poll was taken by the manufacturers record, which is strongly defending the dry act.

"Hypocrite has been the cry of the 'wets' against the 'drys' ever since the days of local option," said toward national prohibition, and the record.

#### Unselfishness of Mothers Often A Vice, Declares Woman Novelist

Unselfishness is often a greater vice than a virtue, says Anne Fish, prize-winning novelist. She observes that many unmarried mothers and mothers "lose their lives" in catering to sons and brothers, and avers that as a vice unselfishness is more frequently practiced by women than men.

#### FEAR OF CANADA TARIFF WAR HAS BEEN DISSOLVED

Ottawa, Nov. 5.—Prospects of a tariff war between Canada and the United States dissolved today, following the announcement that Premier Mackenzie King will continue in office and face parliament.

Had the Rt. Hon. Arthur Meighen and the conservatives taken office it was expected that the tariff war would have opened.

Premier King has challenged the house of commons on a vote of confidence, but until he has a seat he cannot face the house. There are without seats. The premier and other members of his cabinet who are without seats will seek to win seats in by-elections.

It is not expected that parliament can meet before Jan. 1.

#### KIWANIS TO DINE FOOTBALL SQUAD

While arrangements have not been completed it is understood that an address by some speaker not yet determined will feature the entertainment.

Two weeks from today the club will meet at Perry grange hall in the evening where members and their families will enjoy a social time.

#### CONFIDENCE VOTE GIVEN OFFICIALS IN ROAD PROGRAM

Official Count Shows 10,431 Approved Road Bonds, 6,091 Against.

#### MAJOR PROJECTS GET FIRST CALL

Program Will Be Completed As Soon As Possible, Asserts Berg.

"The success for the county road bond issue is a vote of confidence for the county commissioners, as we see it," declared Conrad Berg of Leontonia, chairman of the board when the official vote was announced by the county election board.

The official count gave the bond issue a majority of 4,340. The vote was: Yes, 10,431; no 6,091.

"At the end of three years the people of Columbiana county will begin to appreciate what a wonderful program has been worked out, and at such a minimum of cost to the taxpayers," Mr. Berg continued. "It will be the aim of the commissioners to complete the program as announced within the earliest possible time, and the text will be strictly adhered to. By that I mean that no money obtained from the sale of bonds will be spent upon the construction of any road, other than what has long been publicly announced."

Major Projects First  
"It is just a little too soon to announce what road improvement will be undertaken first. However, the major projects will, of course, be given first consideration as have been shown on the two-color maps that were put out during the campaign."

"When out of 16,000 people voting, 10,900 ballots are cast in favor of the plan of the commissioners, it must show that the people have the utmost confidence in the board."

With the state and federal aid available, Columbiana county will have approximately \$2,000,000 to spend in good road construction during the next few years, which includes the money that will be available because of the approval of the bond issue of \$550,000.

#### INTEREST SHOWN IN LECTURE BY CAPT. MACMILLAN

The lecture by Capt. Donald B. MacMillan, arctic explorer, to be given in the High school auditorium at 8:30 p. m. Saturday, is attracting more than usual attention in Salem, where he has lectured and shown his movie pictures twice, because of his recent explorations with the aid of airplanes.

Scientific specimens gathered by the explorer will be divided among several scientific institutions in the country. Plants, fish and bird specimens were brought back by MacMillan, who returned a few weeks ago.

The lecture will be given under the auspices of the Salem Rotary club for the benefit of the club's crippled children's work. Tickets are on sale at The News office, Salem Lighting Co., Carr's hardware, Storch's store, Hager & French drug, and the Salem Tire & Supply stores. Provision has been made so that there will be seats for all who purchase tickets.

#### Grand Jurors Probing Charge Woman Heads Baby Market

Cincinnati, Nov. 5.—Charges that babies were sold at prices ranging from \$25 to \$35 each, to women desirous of offspring but denied them by nature, were being probed today by the Hamilton county grand jury, following disclosures made in a divorce suit filed by Thomas Brumpler Samuels, railroad employe, against his wife, Mrs. Helen Samuels, who is alleged to have purchased three babies from an unnamed woman, residing in Covington, Ky., just across the Ohio river from here.

Indictments were expected this week, according to Prosecuting Attorney Bell, who is conducting the investigation.

The woman, according to Bell, maintained offices in the Dixie Terminal building, where she carried on "baby market" there, he said, evidence thus far gathered discloses that women went and made their purchases of young babies, which were delivered "as the grocery boy brings round a dozen of eggs."

#### B Stands For Both So John Uses Auto Tag For Both Cars

John Journey, Salem Heights was fined \$25 and costs Wednesday evening by Mayor Russell on a charge of using fictitious license plates.

Journey first drew police attention when he was arrested on a charge of reckless driving preferred against him by a motorist who alleged the defendant had crowded him from the road earlier in the day.

The mayor dismissed this charge but when it was learned that Journey was using a license issued for a Ford Roadster he was asked to account for this and when his explanation failed to meet with judicial approval he was fined.

The man told the mayor he had purchased the roadster from a friend several months ago and had converted it into a truck. The license plates were thrown in for good measure on the deal and Journey under the impression, he stated, that the letter B on the tags stood for "both," continued to drive the renovated car with the old tags.

#### ANTI-SALOONISTS OFFER NEW PLANS FOR ENFORCEMENT

Wayne Wheeler Advocates Three Measures At Convention.

Chicago, Nov. 5.—The Anti-Saloon League of America convention, which opened its four day session in Chicago today, will be a crisis in the progress of the organization, according to Wayne B. Wheeler, general counsel and legislative superintendent of the league.

The meeting will be second in importance only with the one of 1913, when the drive for prohibition was started. The enforcement of the liquor laws will be the principal subject.

Mr. Wheeler will present his report tomorrow in open meeting and will advocate three measures to be discussed by the convention. He says: "Our first concern is placing all prohibition agents under civil service. This not only has the endorsement of both political parties and the recommendation of the president but the practically united support of temperance and civic organizations."

"Another measure we will advocate is that of increasing penalties for violation of the national prohibition act. There is no minimum fine now provided. Some judges have given fines as low as one cent to bootleggers. The proposed measure will provide jail sentences for all offenders."

"The third measure provides for deportation of aliens convicted of violating the prohibition or narcotic act. The house of representatives has twice passed such a measure, but the bill failed to reach a vote in the senate."

"An alien who refuses to become a citizen of the United States and attempts to make a living by violating our constitution should be sent back to the land from which he came."

#### ANNUAL RED CSORS MEETING TUESDAY

The annual meeting of Salem chapter, American Red Cross, will be held at 7:30 p. m. Tuesday, Nov. 10, at the Memorial building, at which officers will be elected.

Every person in Salem who took out a membership in the chapter at the last roll call is entitled to vote at this meeting and is urged to attend.

At this time plans will be discussed for the 1925-26 roll call, which will be put on within the next few weeks.

#### INCREASE GRANTED BY COUNCIL WITH NO OPPOSING VOTE

Chief Will Get \$180 Month, First Class Officers Boosted To \$150.

#### DEPUTY AUDITOR BILL PRESENTED

Deputy Would Assume All Duties During Auditor's Absence.

The police department came in for its share of the municipal salary boost Tuesday night when council, suspending the rules, passed an ordinance granting substantial increases to all three grades.

The chief's salary was raised from \$155 a month to \$180; the pay of a first class patrolman in the future will be at the rate of \$150 a month instead of \$140 and the income of a second grade policeman will be boosted from \$135 to \$140 monthly.

A policeman is rated in the second grade until he has passed the probationary period of six months when he becomes a full fledged, first grade patrolman and will receive at this time the full salary of \$150. The increase becomes effective at the beginning of the approaching year.

The ordinance has been in the hands of a committee for some time, the members being uncertain as to the amount of the increase that should be granted. At the time the firemen received their increase last spring the police and safety director petitioned council for the raise but no action was taken at this time.

The new wage scale places the police on approximately the same level with members of the fire department.

No Dissenting Voice  
Councilman Charles Baker moved a suspension of the rules following the initial reading and the ordinance was passed without a dissenting vote.

An ordinance was passed by council authorizing the granting of a new lease to the Pennsylvania railroad for a small strip of land near the sewer disposal plant which the company first leased Aug. 1, 1917, for the purpose of erecting a trestle at this point. The rental was stipulated at \$415 a year.

City Solicitor L. B. Harris also introduced an amendment to the ordinance passed July 7 of this year providing for the issuance of bonds to pay for the water main extension and erection of gravity lines from the Garfield ave. wells. The amendment is a precautionary measure to provide a sinking fund and to liquidate the interest on bonds of this issue if the unamended ordinance, through the auditor's absence, should be invalidated.

Wants Deputy Auditor  
If an ordinance presented to council last evening by City Solicitor L. B. Harris is acted upon favorably by the solons a new office, that of deputy auditor, will be created. The deputy auditor under the measure as it now stands will be required to post a bond of \$1000 and to assume all the auditor's duties during the absence of the latter.

Acting upon the motion of Councilman Charles Baker the ordinance was placed in the hands of the ordinance committee for consideration before being formally presented before the body.

A letter was read from the State Department of Health asking that the city send a representative to the conference to be held in the senate chamber at Columbus, Nov. 19 for the purpose of discussing sewage disposal problems. Smith moved and Woods seconded that providing the funds can be made available, the service director be sent to the conference as the representative of the city.

Council also passed an ordinance providing for the transfer of \$500 from the general fund to the disposal plant fund.

#### OFFICIALS CALLED FOR JURY PROBE

Naturalization Papers Sold To Non-citizens Of Mahoning County.

Cleveland, Nov. 5.—Eight prominent Youngstown officials and business figures were in attendance when the federal grand jury reconvened today.

They had been subpoenaed by Assistant United States Attorney Howell Leuck. The charges of bribery developed when it was learned that naturalization papers were being sold to non-citizens in Youngstown.

Those subpoenaed were J. H. C. Lyon, judge of common pleas court; T. J. Thomas, county prosecutor; Roy T. Mas, assistant county prosecutor; H. W. Powell, chief of police; Charles Harrison, county detective; John H. Thomas, deputy county clerk; Guido D. Vernacci, wealthy Youngstown banker, and Savius T. Christian, naturalization officer.

Members of the district attorney's staff refused to divulge any of the details of the case today until the grand jury has returned an indictment.

## Questions And Answers

By FREDERIC J. HASKIN

Any reader can get the answer to any question by writing The News Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This office applies strictly to information. The bureau can not give advice on legal, medical and financial matters. It does not attempt to settle domestic troubles, nor undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer. Address The Salem News Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

Q. What is the value of property in the District of Columbia? F. J. W.

A. The total valuation of government and privately owned property in the District of Columbia is about one and a quarter billion dollars. Of this the government owns about one-third and the value is four hundred million or more dollars. This is exclusive of schools, engine houses, foreign legations, etc.

Q. When will the next convention of the Federation of Women's Clubs take place? N. S. R.

A. It will be held from May 24 to June 5, 1926, at Atlantic City.

Q. Who invented the Cherokee alphabet? S. H.

A. It was invented by George Guess, a half-breed Cherokee Indian who lived from about 1779 to 1843.

Q. What is meant by dead ice? M. H.

A. The term is applied to glacial ice which has lost its motion because the whole ice movement has been checked or because the part has become detached from the main ice sheet.

Q. When postal employees work on Christmas day, do they get a holiday afterward? T. O.

A. The Postoffice department says that postal employees who are required to work on Christmas day because of the condition of the mails, are granted compensatory time on any of the following working days within 30 days after Christmas. It has been the policy of the department to limit to the absolute minimum the employment of men on Christmas day and during this past year rural carriers were granted holiday the entire day, and city carriers and clerks excused at noon.

Q. In what direction does a ship travel, going through the Panama Canal from the Pacific to the Atlantic ocean? E. D. S.

A. A ship on entering the canal at the Pacific follows an irregular course in a general northwesterly direction and then travels almost due north to the Atlantic end.

Q. We often hear of the glass or jointed snake, which it is claimed is capable of becoming disjointed and coming together again. Is there such a reptile? O. H. W.

A. The explanation of this curious phenomenon lies in the ability of this reptile to drop its tail, an act which sometimes enables it to escape while the still wriggling tail attracts the pursuer. Many other lizards do the same thing and a "spike" or short and imperfect tail grows in place of the lost tail. This curious reptile is rarely seen, as it lives under decaying vegetation and leaves or burrows in the soil. It is sometimes turned up by the plow. It has long been the subject of discussion, and is merely a harmless, legless lizard, and because of its food habits it is of considerable value to agriculture.

Q. Was last spring warmer than usual? N. D.

A. The Weather Bureau says that February, March and April were warmer than usual over the entire country. It does not believe however that the world is getting warmer in general.

Q. Why do people try to reach the North Pole? J. H.

A. Early efforts in polar exploration were largely for commercial interests. During the 20th century the renewal of exploration in the Arctic and Antarctic regions has been due largely to the spirit of scientific research, but also for geographic achievement. Peary at the North Pole made a great number of observations which are very valuable in the study of geography, physiography, meteorology and oceanography.

## FUEL THAT GOES FARTHER

Seven tons of our best coal will heat the average two-story house all winter in place of nine or ten tons of ordinary fuel. Some folks call it the "lazy man's fuel" because you only have to fire your furnace once in the morning and once in the evening—and clean out the ash pit once a week. Use this coal and you'll have a warm house all the time—but no soot nor clinkers—and the wife will never need to touch the furnace.

## DOCTOR ON TRIAL FOR LOVE MURDER

Memory Lapse Defense For  
Slaying Of Deformed  
Daughter, Aged 32.

Littleton, Colo., Nov. 5.—The trial of Dr. Harold Elmer Blazer for the "love murder" of his deformed 32-year-old daughter, Hazel, was resumed in the drab bare-walled little courtroom of the Arapahoe county district court today with the prospect that a jury to decide the fate of the doctor will be chosen from the jury box today.

The jury box was filled and emptied with monotonous regularity yesterday from the panel of 120 veniremen summoned by Judge Samuel W. Johnson. Despite the fact that the prosecution and defense had each exercised but one of their 15 peremptory challenges, questioning of prospective jurors indicated plainly that the main issue of the strange homicide case, filled with love and pathos, will hinge around the sanity of Dr. Blazer at the time it is charged, he snuffed out the life of his mindless woman-child by pressing to her a straitjacket cloth saturated with chloroform.

Lewis DeRiggs Mowry, chief of defense counsel, spent much time with each juror endeavoring to determine the attitude toward his contention that the old-fashioned, kindly country physician was the victim of "physical automatism."

Mowry will strive to prove to the jury by evidence and argument, that Dr. Blazer suffered a lapse of memory for a period of 48 hours before, during, and after the deed which time he made three attempts to take his own life with the same saturated cloth, then with a 20-grain poison tablet and finally with a razor blade that made a deep, jagged wound in his throat and missed the jugular vein by one-eighth of an inch.

## TAX AMENDMENT LOSES BY 50,000

Office Entender Proposal  
Hit Hardest By Voters:  
Losses By 178,500.

Columbus, Nov. 5.—With returns still missing from 1,167 widely scattered precincts, state election experts here early today were adhering to their expectation that the majority vote cast at Tuesday's elections against the proposed amendment to the Ohio constitution providing for classification of property for taxation purposes will be in the neighborhood of 50,000.

Unofficial returns, received at Secretary of State Brown's office from 7,627 of Ohio's 8,834 precincts give: Tax limitation yes, 403,578; no, 434,442; majority against 30,864. Term extension yes, 309,988; no, 478,428; majority against 178,440. Anticipation of the 50,000 majority against classification is based on the fact that the missing precincts are in rural districts, which according to partial returns, have registered a strong majority against the proposal.

## FRANC DECLINES SEVERAL POINTS; BELOW 4 CENTS

New York, Nov. 5.—Quotations for the French franc fell below four cents at the opening of the market today, for the first time this year, and, with the exception of a short period in March, 1924, the lowest in its history.

A further decline of seven points, added to yesterday's 15-point loss, brings the franc down to the American equivalent of 3.96 1/2 for demand and 3.97 for cables. Foreign exchange dealers and banking houses here reported heavy offerings of French currency for the account of German and Amsterdam interests prior to the opening of the American markets.

Paris was also a heavy seller due to the rejection of the Painleve program of fiscal reform by the Socialists.

## AMERICA LAGS IN AIR DEVELOPMENT

Report On The Commercial Development Given By Hoover Committee.

Washington, Nov. 5.—America, naturally the most favored of all nations for the development of aircraft, has been for out-distanced by all other world powers in the commercial development of this great science, the Hoover committee on civil aviation declared today as a result of a worldwide survey of aeronautics, which has extended over six months.

The committee, headed by J. Walter Drake, assistant secretary of commerce, anticipated the president's aircraft commission, which is due to make a similar report the last of this month, and dealt only with the commercial aspects of aeronautics.

Four major recommendations were made to encourage the development of commercial aeronautics.

1.—Enactment of a commercial aeronautics law.

2.—Formulation of a definite government program for building up the industry.

3.—Cooperation of all government agencies, including the army and navy, to strengthen the aircraft manufacturing industry.

4.—Public support through modified insurance rates and investment of private capital.

Although favorable to government co-operation, the committee opposed a direct subsidy of industry, feeling that any step in this direction would be unnecessary.

Establishment of a bureau of civil aeronautics in the department of commerce is recommended.

**RIVAL OF MONTE CARLO BARED BY NEW YORK POLICE**

New York, Nov. 5.—A gambling palace on the upper West Side rivaling Monte Carlo which thrived with the patronage of millionaires and those prominent in the night life of Broadway was revealed today in the request of Police Commissioner Richard E. L. Wright for a sweeping grand jury investigation in connection with the discharge of 19 prisoners arrested in a raid on the alleged gaming rendezvous.

Political influences resulted in the prisoners' release, Commissioner Wright charged, despite the seizure in the raid of faro outfits, roulette wheels, horse racing sheets and records disclosing the changing of \$10,000,000 across the green cloth tables.

Shortly after the raid opened, the commissioner alleged its sponsors obtained an injunction restraining the police from raiding it or interfering in any way. The police, however, succeeded in getting evidence enough to obtain search warrants, he said.

## NOW YOU MAY TRY THIS VEGETABLE SYRUP FREE

This Is Your Chance to Prove That Toning Up Your Liver Will End That Tired, Run-Down Feeling. Build Yourself Up! Win Back Sound Digestion, Strength and Energy—Feel Your Very Best Again!

In his private practice Dr. H. S. Thacher demonstrated that such symptoms as indigestion, gas on a Sour Stomach, Belching, Dizziness, Colds that Hang On, Sick Headaches, Constipation, that Tired Feeling and a general Run-Down condition of the System are often the result of a Sluggish Liver—and that relief in such cases comes quickly when the Liver is properly Cleaned and Toned and the System is working normally again.

**Why This Gives Relief**  
When working as Nature intended your Liver does three things necessary to keep you feeling your best. First it purifies your BLOOD, every drop of which passes through the Liver every fifteen minutes. Second, your Liver furnishes the essences that are essential to perfect DIGESTION. Third, your Liver supplies the secretions Nature uses to lubricate your intestines so that your Bowels can move naturally, gently and regularly every day. When your liver becomes sluggish it cannot do these three things; consequently you suffer from one or more of the symptoms above described.

**Share It With Family!**  
Just to prove to you that you CAN get quick RELIEF, druggists are giving away FREE liberal trial size bottles of Dr. Thacher's Liver and Blood Syrup. It is a syrup of PURELY VEGETABLE ingredients known to Physicians for their CORRECTIVE and HEALTH-BUILDING properties. Each ingredient is chosen to help Nature to cleanse and tone the Liver to correct this cause of Constipation—to improve Digestion and Appetite—to Nourish and Strengthen the System—to tone the Tired and Over-taxed Nerves and to send purer, Healthier Blood coursing through your veins.

## COLUMBUS BOYS BAR "FLAPPER" FOR THEIR WIVES

Columbus Nov. 5.—The flapper apparently has no chance for wedlock among the marriageable young men of Columbus.

Young women of the flapper type appealed to but one out of 50 youths questioned here by Rev. T. L. Lowe, pastor of the West Fourth ave. Church of Christ concerning qualifications of "the 1925 model wife."

All 50 young men believe the model wife should be a Christian while 49 of them deemed knowledge of house-keeping necessary and opposed her drinking or smoking.

The lone supporter of the flapper modified his assertion that he "could see no harm in a slight use of liquor or tobacco," by stating he would not want his girl "to do it." He also registered his favor for the "better" and for the girl who is "easy to look at."

The young men were about evenly divided on the question of tripping the light fantastic, 50 per cent opposing classifying dancing as an "accomplishment."

Answers to the query whether the model wife should be an "intellectual," a "social leader," or a "good cook," revealed that the average man prefers a good cook.

## BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga. (adv.)

### MASSILLON KLAN WOMEN SEEK TO RESTRAIN CHIEF

Canton, O., Nov. 5.—Nora Arnold and Emma Coleman of Massillon today filed suit against Jessie H. McGrawy of Columbus, imperial representative of the women of the Ku Klux Klan in Ohio, and ask an injunction to restrain defendant from banishing them from the order and suspending Massillon unit No. 30.

They charge usurpation of authority against Robbie Gill Comer, imperial secretary, and her husband, J. A. Comer, imperial counsel, both of Little Rock, Ark. They charge Mrs. Comer has usurped the office of imperial commander, that she has drawn \$16,666 in violation of the rights of the order and paid her husband \$18,000 without authorization; withheld books of the order from the auditing committee and given her husband exclusive concession for furnishing robes at cost, plus ten percent, and refused to allow an accounting.

### EX-KLAN LEADER CALLS DOCTORS TO HIS DEFFENSE

Noblesville, Ind., Nov. 5.—D. C. Stephenson, former Klan and political power in Indiana, and his two alleged henchmen, Earl Gentry and Earl Klinck, began their efforts to bar down today the wall the state has built in its efforts to prove them guilty of the murder of Madge Oberholtzer.

Moving up an array of medical testimony to refute the state's surprise attack that Miss Oberholtzer did not die of self-administered poison but from infection of wounds alleged to have been made by Stephenson's teeth, the defense has abandoned, evidently, the alibi plan it had first announced when the state's case was one of "psychological murder."

## TALK OF BASEBALL TRADES IN MAJOR LEAGUE PERSISTS

Deals Likely To Be Brisk Before The Start Of Another Season.

By DAVID J. WALSH  
New York, Nov. 5.—Although the silence is rather deafening right at this moment, there is every indication that trading will be brisk and somewhat boisterous before the start of another major league campaign. In fact, conditions are such in several camps as to preclude the possibility that all clubs will go to the barrier, as is, for the 1926 season.

The giants, for one, are due for a write-proof-reading, it being John McGraw's custom to dally with a loser about as long as the average man dallyes with a mouthful of carpet tacks. That much-discussed New York-Cincinnati trade will go through, if Cincinnati can swing it, but not in its original guise. He will not give a vest for a buttonhole. Neither will he give Terry Mangel and Snyder for Luque and Hargrave.

McGraw Wants Roush  
It is no secret that the man McGraw really craves is Eddie Roush. He needs a fast, hard hitting outfielder. However, he also needs several pitchers and a catcher who can get off his own instep. There will be something on the fire here before the end of the winter.

An even earlier moment will see the world champion Pirates involved in a trade. Some one stubbed a toe when they announced that Eddie Moore would be involved in the Pittsburgh-San Francisco transaction for Wander and Rhyme, for it is reported that seven National League clubs have declined to waive on Moore.

This leaves the Pirates one of two decisions: either withdraw its request for waivers and try to short-change the Seals into accepting a player who can be waived out of the league or to make a deal for Moore inside the National League in the hope of getting another player who will be acceptable to San Francisco.

Rigney May Go  
Ty Cobb's statement that four American League clubs were in the market for Emory Rigney, shortstop, means that Emory will pick up his feet and go elsewhere. He had a bad year in 1925 and Cobb probably will be pleased to accept the best offer. Then, also, there is all of this loose-lipped talk about the Senators trading Peckinpaugh and Goslin to Boston. Washington men deny that the Senators feel the need of a new shortstop for 1926, yet Peck's world series record is not one that you down with a single gulp. He really seems to have slipped.

About Goslin's case, the writer

knows little except what has been aired in public about his difficulties with the management. As a ball player, however, Goslin has most of his life before him.

Fohl Wants Shocker  
Incidentally, there has been quite a bit of whispering going on about Lee Fohl wanting Urban Shocker next season. Of course, if Peckinpaugh happened to be traded into the management of the Red Sox this stuff would be off. Howard Ehmke, etc., has been mentioned in connection with the Shocker business but not as a man-to-man proposition. The Yankee would have to ante heavily, and with great promptitude.

They also say that Maranville is through in Chicago and that Brooklyn has an idea that he would look very natty in a Dodger uniform. This only serves to illustrate that one man's epicure is another's honey dew melon. In Chicago Maranville is not quite so popular as diphtheria.

## EVANS STACKS UP AGAINST BARRETT

Philadelphia Battler Will Meet Youngstown Boy Next Tuesday.

Bobby Barrett, the Philadelphia battler who has a national reputation for his ability to knock them out with one punch, will be Dick Evans' opponent at Youngstown next Tuesday night at the Rayen Wood auditorium.

Evans has been coming along at a fast rate, but in meeting Barrett, he is meeting the best fighter that he has ever been asked to face and it isn't likely that Evans is going to find the going very soft. Any one who can knock out such well known top notch fighters as Nate Goldman in three rounds; Jack Rappaport in seven rounds; Joe Baum in four rounds; Hymie Gold (Oakland Jimmy Duffy) three rounds; Jimmy Sacco, welterweight champ of the Pacific coast in four rounds, and who has held his own and better with Lou Tender, Sailor Fredman, George Ward Johnny Mendelsohn, Joe Anderson, Dode Berrot, won and lost with Charley White, beat Billie Ryan and a raft of others, stands out as a real opponent for the Youngstown boy.

If Evans can let by Barrett then he is to be considered one of the best middle weights in the making, that this part of the country has ever started on a road to a championship. They will go 12 rounds or less.

## Greenleaf To Seek Match With Champ

New York, Nov. 5.—Ralph Greenleaf, former world's champion at pocket billiards, may file a challenge against Frank Taborski, present holder of the title, for a championship match.

## GAME FOR SECOND STRING MEN WITH CANTON CENTRALS

Springer To Save Varsity When Wellsville High Plays Here.

To give the untired members of his squad an opportunity in an actual game, Coach Wilbur Springer has scheduled a game at 4 p. m. Friday with Canton Central, a junior high school but one that through good coaching and native ability has developed a fast and hard hitting combine. Springer intends to reserve about 16 men for use in the contest with Wellsville the day following. The remainder of the squad will be aligned against the Canton boys.

Friday's visitors are coached by "Tiny" Conkle, a Salem high product and former Ohio University football luminary. Conkle has had unusual success with his light team and is expected to heat things up for Salem high stringers. The game will be played at Reilly field.

Although Wellsville has experienced nearly all of the 57 varieties of hard luck this season and has lost four of its games, the defeats have all been by small margins. The total points scored by opposition teams which have trounced this outfit total 56, so their past record should not be accepted as a criterion for defeat Saturday. Pignatore, playing fullback for Wellsville, is their most dangerous man and is a line plunger who will bring out all the defensive ability the Red and Black has acquired.

Several members of the Salem varsity are suffering from severe colds contracted in the mud and slush of last Saturday's game. However, Springer intends to use practically the same lineup as was employed against East Liverpool. A basketball practice in the high school gym Monday night did much toward removing the stiffness and soreness from varsity limbs.

Wellsville is expected to play a line bucking game.

## Tunney Refuses To Meet George Godfrey

New York, Nov. 5.—Gene Tunney's refusal to meet George Godfrey, negro heavyweight of Philadelphia, today caused the promoters of the annual Christmas fund boxing show to look toward Jimmy Maloney, of Boston, as a possible opponent for Godfrey. Tunney stated that the only negro heavyweight he would be willing to meet was Harry Wills.

A device to protect fruit trees from frost and to kill insects with smoke screens has been invented in Sweden.

## TAKING UNPRIME PELTS IS WASTE SAYS HAMILTON

"Taking an unprime pelt is a deliberate waste of nature's most valuable and beautiful gifts and not until the trappers and raw fur hunters look upon it as such will the best use of our valuable resources in fur be realized," declared Deputy Tax Collector Randall Hamilton of Lisbon, who is active in the affairs of the Columbiana County Fish and Game Protective association.

"If the unprime animals now killed every year were left for breeding purposes, the animal catch would probably not be decreased more than five percent while the supply of wild fur animals would probably be increased about 50 percent in five years," Mr. Hamilton suggested.

"Fur is in prime condition for harvesting at one brief season only. An open season of more than three months' duration is not justifiable anywhere in the United States. The average quality of pelts would be much higher if laws made seasons shorter and uniform for areas having the same climatic conditions. If the fur business is to maintain its position among the great industries of the country, the source of supply must always be assured and protected," Mr. Hamilton said.

## Fails To Arrange Walker-Greb Bout

New York, Nov. 5.—Failing in his efforts to sign Harry Greb and Mickey Walker for a return bout, Tex Rickard declared today that he would put on a welterweight championship match between Walker and Willie Harmon at his new Garden A. C. some time next month. Greb's demands were prohibitive, the promoter declared.

## DOLLINGS HEADS ARE SENTENCED TO ATLANTA PEN

Columbus, Nov. 5.—Appeal to the United States circuit court of appeals, was being prepared today by counsel for William C. Benham and Dwight Harrison, former heads of the defunct R. L. Dollings company, of Ohio.

Benham and Harrison for the second time were convicted, by a jury in the federal district court here late Saturday, of misusing the mails by broadcasting alleged misrepresentations in connection with stock sales.

Overruling a motion for a new trial, Federal Judge Smith Hickenlooper, Cincinnati, who presided over the recent trial, late Wednesday sentenced Benham to seven years in the Atlanta, Ga., federal prison and fined him \$4,000. Harrison was sentenced to six years without fine.

At the first trial, both defendants were sentenced to 20 years imprisonment at Atlanta.

## PER CAPITA COST OF SCHOOLS LOW

County Records Show 10,799 Pupils; Weekly Cost Is \$2.80 Each.

An analysis of the total amount of money paid out in Columbiana county for educational purposes during the 10 month period of 1924-1925 and ending June 30 last, wherein the costs of schools totaled \$1,245,315.94, discloses that the per capita cost was \$2.80 per week.

This figure is based upon the record of the most recent school enumeration, which showed a listing of 10,799 children of school age in the cities, villages and township rural schools.

The division shows that the per capita cost per pupil for the 10 month period was \$115.31, and this amount divided by the 10 month term shows an expenditure per capita of \$11.53 per month. Assuming there were four weeks per month, this would show a cost per capita of \$2.80, plus per week.

There are 5,445 boys and 5,354 girls of school age in this county, official enumeration records show.

Per capita cost of education in Columbiana county is perhaps as low as any county in the state, it was pointed out today by school officials of this county. The cost of education not only includes the salaries of instructors, but the maintenance of buildings, new construction, insurance, fuel and light and many other cost items that enter into the general system.

## Desert In Mongolia Cradle Of The Human Race, Says Explorer

San Francisco, Nov. 5.—The Gobi desert in Mongolia has been definitely established as the cradle of the human race in the opinion of Dr. Roy Chapman Andrews, noted explorer, who returned yesterday from a second exploration of the vast Asian waste which has been arid for the last 20,000,000 years.

The Andrews expedition under the auspices of the American Museum of Natural History, according to its leader, established that Mongolia is the oldest continuously dry land in the world.

Many new and startling geological, zoological and topographical discoveries were made by the expedition.

## Every Township May Collect \$1,000 State Fund For Its Roads

County commissioners have been advised by state highway officials that township trustees of Columbiana

county should immediately begin legislation, which would authorize such townships to participate in the advance of the Green law, which provides the payment to a township of \$1,000 per year for good roads per 1,000.

"There are 1,412 townships in Ohio and with an appropriation of but \$350,000 available this year, speedy action should be taken by township trustees to secure their share of this fund," the commissioners have been informed.

Yellow Creek township will probably be the first to file its legislation to secure the \$1,000 available under this law, which is known as the "Green law."

## NOTES OF STAGE AND SCREEN

## "FLIRTING WITH LOVE"

The members of Colleen Moore and Conway Tearle are to have the first of their lives, for these two screen luminaries are to appear in "Flirting With Love," a First National picture, directed by John Francis Dillon, which is coming to the State Theater Friday for a two day run.

This will mark the first time that Miss Moore and Mr. Tearle have played opposite each other, and you will agree that they make an ideal pair of screen lovers. Miss Moore plays the part of the actress, while Tearle starts the complications by stopping the play in which the actress is appearing, on the grounds that it is immoral. Whereupon the actress "goes for" the amateur reformer and "gets him" in the last reel.

Other players in this picture which is based on Leroy Scott's famous novel, "Counterfeit," are John Patrick, Frances Raymond, Winifred Bryson, William Gould and Alan Rosscoe.

## BARBARA AND CONWAY

Barbara La Marr and Conway Tearle are again seen together in "The Heart of a Siren," the Saxtons-Lubin production which First National opened yesterday at the Grand Theatre.

Miss La Marr, as a siren of Europe—the Riviera—has a role perhaps better than that in which she played with Tearle in "The White Mosh." Famous for her lavish costumes, she wears an array of the new Paris styles—negligees, day

## SAVED FRIEND FROM HOSPITAL

So Mrs. Heckman Decided To Try Lydia E. Pinkham's Vegetable Compound—Note Results—

Council Bluffs, Iowa.—"I had pains in my back and sides and headaches, so that I could not do my work. Once in a while I would be sick a week. A friend told me that Lydia E. Pinkham's Vegetable Compound had kept her out of the hospital, so I thought I would try it, as I had tried a number of other medicines. Now I feel like a different person and am telling my friends about the Vegetable Compound helping me, hoping they will let it help them, too."—Mrs. ETHEL HECKMAN, Box 21, R.F.D. No. 1, Council Bluffs, Iowa.

Saved From An Operation

Monessen, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for a serious case of female trouble. The worst pain I had was in my right side and back with swelling in my side so that I was unable to go to the hospital but here I am, still without an operation. I saw your advertisement and have taken the Vegetable Compound with splendid results. I recommend it freely and will answer any letters from women asking about my case."—Mrs. J. frocks and a splendor of evening gowns—which would captivate the fancy of any woman.

Tearle's role as a poor but aristocratic English diplomat also is admirably suited to him.

The plot finds the pair stopping at the same sumptuous hotel on the Riviera. The siren's entry is a signal for all the men in view at once to desert their ladies and stare with dazed admiration upon the gorgeous creature as she passes—that, all but one.

The diplomat, with his mother and his fiancée, lingers her, and woman-like she resolves to crush his heart as she has the hearts of scores of others.

The climax comes when, having won his love, she finds her love gone out to him in return while between the two arises the unsurmountable barrier of his aristocratic family.

## COURT NEWS

**Divorce Petition**  
Edith M. Wright, in a divorce petition filed in common pleas court against her husband, Clyde R. Wright, of Wellsville, relates that they were married July 10, 1919, and that soon afterwards they adopted a child, now aged six years.

The divorce petition, which has been filed by Attorney Charles Boyd relates that Wright struck his wife and called her vile names Oct. 29 last and "on other occasions for several years," she has been called vile names by her husband, and that on many occasions the defendant demanded that the plaintiff leave home. Wright owns a property at 2028 Chester ave., Wellsville, and is an employee of the McLain Fire Brick Co.

**Dismisses Jury**  
The petit jury was excused by Judge James G. Moore Wednesday until next Monday morning at 9:30 o'clock, because of the fact that several jury cases listed for trial in No. 1 of common pleas Thursday have been settled.

A number of other jurors will very likely be summoned on account of the trial of George Anderson, of East Liverpool, charged with murder in the second degree which will come up before Judge John B. Worley of Cadiz.

Probably the most wonderful piece of mechanism of its kind in the world is the "grand balance," or scale used in the Bank of England. It stands about seven feet high, and weighs approximately two tons. It can weigh a grain of dust, or hundreds of pounds of gold. A postage stamp placed on the scale moves the index six inches.

Formerly Egypt was practically rainless. Now, owing to irrigation and consequent increase of vegetation there are about 18 days' heavy rain yearly in the Nile delta.

## Legalized Marriage Vacations May Solve Divorce Problem

Providence, Nov. 5.—"Legalized marriage vacations" is the solution to Rhode Island's divorce problem, according to former State Senator Frederick B. Cole, of Warren, secretary of a special legislative commission on marriage and divorce.

Following the notoriety contracted with the exposure of the "divorce mill" which New York lawyers were operating in the state, the legislature appointed the commission to study the situation and file recommendations which would serve to wipe out the laxity of the existing divorce laws. The report will be given to the legislature at its next session.

Mr. Cole's report follows: "Under by plan," said Mr. Cole, "a man and wife who disagree must live apart under supervision of a probation or marital relations court, while their children are taken care of by a state appointed custodian. Then, after the misunderstandings have been arranged or forgotten, the couple can come together again amicably and each convinced that the other has been true during the period of legalized separation."

"A domestic relations court, aimed at the legalizing of marriage vacations and in other ways obviating the necessity for divorce procedure, is the thing I am working for."

"The institution of such a court together with a probation department composed of men and women of tact and common sense, can do more for the alleviation of marriage evils than any other thing."

"Wherever domestic relations courts are in existence, wherever a man and his wife can appear before a judge to tell their story in their own way, without interference from fee-seeking lawyers, it has been conclusively proved that 65 times out of 100 the misunderstandings are settled and the divorce avoided."

"This state is cursed with greedy lawyers who egg their clients on in the face of possibilities of conciliation so that they can obtain more fees."

"For every conscientious lawyer searching for the happiness of his client, there are two searching for the fattening of their pocketbooks. The domestic relations court would do away with lawyers and their fees. 'I want it distinctly understood,' continued Cole, 'that I am not advocating trial marriages. A marriage is not to be approached in an experimental vein. But the fact remains that human nature is human nature. A vein of irritation often covers an abiding love. Give that irritation a chance to wear off and that love will show itself again.'"

"Absence makes the heart grow fonder" is not a proverb to be sneezed at."

**DAMASCUS**  
Mrs. W. K. Talbot and daughter, Miss Anna, were Salem visitors Wednesday.

Miss Freda Bradshaw and Mrs. L. W. Atkinson were shopping in Alliance Wednesday.

Mr. and Mrs. Oscar Townsend of Coudersport, Pa., have moved here and will help care for his father, Charles Townsend, who suffered a stroke of paralysis Saturday night.

**SCIATIC NEURITIS**  
The sciatic nerve, situated at the back of the hip joint is frequently the subject of Neuritis, giving rise to the painful disease Sciatica. The symptoms are intense pain which shoots down the thigh to the foot, often aggravated by walking, and with painful points along the course of the nerve, very tender to the touch.

The disease is a very obstinate one and does not readily respond to ordinary treatment. It takes more than the usual pain sedative even to alleviate the pain.

The quickest, safest and surest way to get rid of the persistent nerve racking pains of Neuritis is to get a bottle of Allenburh Special Formula No. 2, which comes in capsule form. Take them as directed and notice how in about 24 hours they have considerably reduced, if not entirely banished, all pain and soreness.

Continue until the Neuritis has entirely disappeared and you are able to work and rest in comfort once again. The J. H. Lease Drug Co., Floding's drug store, Bolger & French keep this special formula No. 2 in stock all the time and sell lots of it.

# HANOVER TRUSTEE FIGHT IS LIVELY

Results In Other Township Election Contests Are Revealed.

There was a straight Republican and Democratic contest waged for township offices in Hanover township, the returns have disclosed. Elmer Sanor, a candidate for his second term as a member of the board of township, lost by five votes. Members Wilson and Cox were not candidates for re-election, and an entire new board has been elected.

The new members are James P. Miller, C. A. Hole and Elmer Bolat. J. Edward Sinclair was selected clerk of the board by a majority of 72 votes.

**Trustees Re-elected**  
In Washington township, all present members of the board of township trustees were re-elected, the contest for this office being one of the most spirited ever known in the history of the township. The activity of the present board in putting over the improved road program in Washington township is said to have been the reason for the return of all members.

**Franklin Trustee**  
John Brown is the new member of the Franklin township board of trustees. John A. Willard and P. H. Johnson, the latter the general manager of the Summitville Brick Co., being re-elected for their second term.

In this township the road bond issue carried by a vote of 107 to 15. Mr. Johnson and the present members of the board of trustees took an active part in putting over the grading of the Kensington-Salineville rd in Franklin township.

**Rogers Elects Shively**  
The election of village officers proved to be of more than ordinary interest in Rogers. It is reported, where Mayor Ed Steese, Republican, was defeated by C. T. Shively, Democrat and former postmaster. The name of Mr. Shively was written on the ballot, and it was not until last Saturday, it is said, when an active campaign was launched in his behalf. The vote was 52 to 47 in favor of Mr. Shively.

# Beauty Comes from stimulating Glands

The new way to beauty, health and vim is through stimulating glands. Let us show you at our cost how much it means to you.

The largest gland is the liver. It is the most important gland. We thought for generations that drugs made it active. Now we know they don't.

A torpid liver wrecks both health and beauty. It means lack of bile. Then germs breed and form toxins in the intestines, and those poisons are absorbed by the blood. Some results are these:

Impure Blood Kidney Troubles  
Indigestion Bad complexion  
Constipation High Blood Pressure  
Heart and Lack of Youth

The cathartics you take do not affect the liver cells. The ill results continue. But we have found a gland secretion which does stimulate the liver. It is ox-gall. Physicians the world over now prescribe it. And to millions it is bringing new beauty, new health and new vim.

Ox-gall is now embodied in a tablet. The name is Dioxol. Each tablet contains 10 drops of purified ox-gall. All druggists supply them.

We ask you to learn what Dioxol does. The results start in 24 hours. In a day or two these tablets may bring you a new conception of life.

Let us send you enough to try. See what you gain in a day. Do this for your own sake. Clip coupon now.

# Hair Beauty

Thick, Gleamy Hair in a Moment

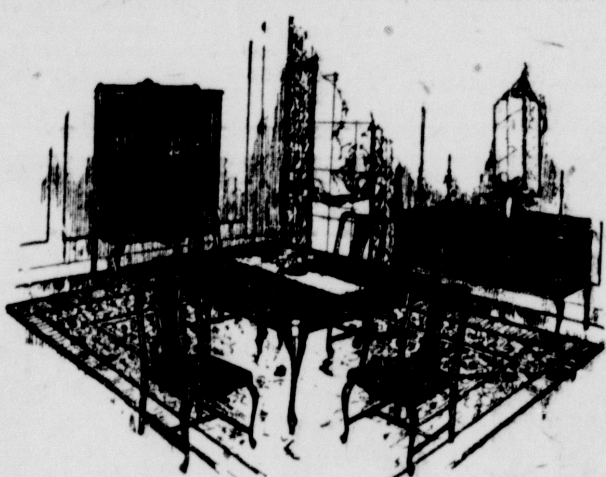

Girls, Try this! When combing and brushing your hair, just moisten your hair brush with a little "Dand-erine" and brush through your hair. The effect is startling! You can dress your hair immediately and it will appear twice as thick and heavy, an abundance of gleamy, wavy hair, sparkling with life, incomparably soft, fresh, youthful.

Besides beautifying the hair, a 50 cent bottle of refreshing fragrant "Dand-erine" from any drug store will do wonders, particularly if the hair is dry, thin, brittle, faded or streaked with gray from constant curling and waving which burn the color, lustre and very life from any woman's hair.

ten in on the ballot, and it was not until last Saturday, it is said, when an active campaign was launched in his behalf. The vote was 52 to 47 in favor of Mr. Shively.

WITH GENERAL OFFICES AND PLANT AT 224 ROOSEVELT AVENUE AND SERVICE STATIONS CONVENIENTLY LOCATED IN SALEM AND VICINITY IS A LOCAL CONCERN WHO ARE PRODUCERS OF THE FAMOUS "MARWOOD" GAS AND "MARWOOD" OIL AND WHEN YOU BOOST "MARWOOD" PRODUCTS YOU ARE BOOSTING FOR SALEM AND COLUMBIANA COUNTY AND AT THE SAME TIME SECURE THE HIGHEST GRADE OF GASOLINE AND LUBRICANTS OBTAINABLE FROM A CONCERN UNDER PROGRESSIVE MANAGEMENT OF PEOPLE OF WIDE EXPERIENCE IN THE OIL BUSINESS.

By reason of the volume of business and the courteous treatment all patrons receive. But more important than this is the fact that they are the distributors for the best products. When you use their oil you KNOW that you are using the BEST.

Their products will be found in demand by all who insist on the best.

When you buy gasoline you want full value in power and mileage. You want pep on the get-away; smooth, steady action on the trail.

You get no "souvenirs" with Marwood. When you drive to a station and have your tank filled with Marwood your premium is increased power and mileage, a sweet running motor, increased compression, absence of carbon troubles—100 per cent service and satisfaction.

Another thing—you don't need any "chemical coasers" in this wonderful new highly refined gasoline. "Mar-

wood" is "all there"—needs no additions.

Every day Marwood wins new friends. If you are not on the list, start today! Give it a test—prove that this gas does all they claim for it.

This gas is a straight-run gasoline that adds to the life of any motor. It is economical—saves repair bills and gives more miles per gallon.

Quality products has always been the policy of this well known oil concern. It has seen other firms rise in a burst of publicity and promise only to sink into the commercial oblivion which is the reward of all dealers who devote more time and attention to sensational selling methods than to quality products. While keeping thoroughly abreast of the times, this house has ever believed that when a patron ask-

ed for a special grade of oil he should get that particular oil and they have made it their invariable policy to see that he got it. Whether it were engine oil or cup grease or anything else in their line the trade has come to understand that when it came from this house it was of the very highest quality at the most reasonable price the market permitted.

So extensive and established has become their trade that their products are known everywhere.

Each department of The Vahey Oil Company is in charge of a man thoroughly conversant with the wholesale business conditions of the country, whilst the management is in charge of a man of wide experience in the buying world, familiar with retail trade conditions, and this firm has become one of the most valued of our commercial assets.

### LATEST IN STYLE FOR WOMEN

Paris, Nov. 5.—Spectacles to match the gown is Fashion's latest edict. Parisian oculists declare they have never done more business than at the present moment, often selling as many as 100 pairs of glasses a day.

The student's variety of dark-colored rims in plain tortoise shell are fast being replaced by blue, green, red, mauve beige and every other conceivable tint that might be required to harmonize with a new frock. There are rims in all the shades of blue from a very light baby shade to darkest midnight and almond-green and Veronese are particularly popular to wear with gowns of the same shades. One of the smartest oculists is showing some charming ones in his de rose enamel to go with costumes of the same tone that has been so fashionable all summer and fall. There are also some unusual shades of henna and brick.

Certain chic Parisiennes are running to contrast in spectacles, wearing colors that contrast with instead of match the gown. At Longchamps on Sunday a very smart person was wearing orange rimmed ones with a charming rust-colored velvet frock trimmed with red fox and red rims with a black velvet coat garnished with red leather.

## No Need to Tolerate Gray Hair any Longer

### You Can Restore the Former Shade with Kolor-Bak

The clean, colorless liquid, known as Kolor-Bak, has enabled thousands of men and women to take years from their appearance by restoring the original shade to their gray hair.

The following is a letter typical of many written in praise of this remarkable preparation.

"Only a short time ago my hair was quite gray and becoming grayer. It was falling out. My scalp itched and dandruff was present."

"Only a few applications of Kolor-Bak stopped the itching and dandruff. My hair soon started coming out. Most wonderful of all, however, is that my hair is again its original shade. I look ten years younger. No wonder I'm so thankful for Kolor-Bak."

Authorities state that hair turns gray when for any reason it fails to receive the proper amount of coloring matter from the cells in the scalp. No matter what the cause of the grayness, it is amazing to see how quickly Kolor-Bak brings back the former shade. It is the best known substitute for the natural pigmentation.

Kolor-Bak is not sticky, greasy, messy or unpleasant to use. It is just a clean, colorless liquid containing ingredients known to be beneficial to hair and scalp—as easy to use as water. Results often appear in a week.

It not only restores the former shade to the hair; it banishes dandruff, prevents itching of the scalp and stops falling of the hair.

No samples of your hair required—no tests necessary—as this one clean, colorless liquid is effective on any gray hair. Money back instantly if desired results do not appear.

## BONDS SOLD FOR WESTVILLE ROAD

### New High Premium Secured From Sale By County Commissioners.

Acting as an agency for the Knox township trustees, the county commissioners have sold \$20,000 five percent road improvement bonds to the A. T. Bell & Co. of Toledo, at a premium of \$244. There were 16 bidders for this issue, which has established a new high record for the demand for any issue of Columbiana county bonds.

The bonds were sold to pay the Knox township share of the cost of the improvement of the Salem-Alliance road, commonly known as the Harrisville-Westville road, in agreement with a joint resolution entered into between the trustees and the county commissioners April 21, 1924.

A similar agreement was made between the trustees of Smith township and the commissioners of Mahoning county at about the same time. The construction of the road has been under the supervision of County Surveyor George Montgomery of Mahoning county.

This road is nearing completion and has been improved by a macadam surface. In later years it is proposed to surface this road with a vitrified paving brick top, the type of construction to conform with that on the Cox highway between Westville and Salem. The road is a direct route out of Salem into Mt. Union, Alliance, and

## BROUGHT RELIEF AFTER 2 YEARS SUFFERING

"The makers of Tanlac will always have my warmest thanks, for I don't consider it any exaggeration to say I owe my life and present good health to Tanlac," is the striking statement of Andrew Groeschner, farmer.

"Words simply can't express the misery I endured for 2 years from indigestion. At times gas pains would catch me around the heart and almost cut off my breath. These awful pains would last two and three hours. My nerves were all unstrung. I slept poorly and got in such a bad way that my days seemed to be shortening rapidly."

"I tried everything, but disappointment was my only reward until I began taking Tanlac. I have been taking Tanlac off and on for a year now and feel so different that there's no room for comparison. I eat good and sleep good and feel that Tanlac has given me a new lease on life."

### STARK PROSECUTOR PROBING CHARGES AS OFFICIALS ACT

Commissioners Of Stark And Columbiana Fire Superintendent.

### COUNTER CHARGES BROUGHT BY WEBB

Incompetency Charged By Officials; Meddling Webb's Charge.

Canton, Nov. 5.—Prosecutor C. B. McClintock today started an investigation of charges and counter charges against E. E. Webb, superintendent of the Fairmount Children's Home, after the board of trustees of the Fairmount Children's Home last night of Webb by the commissioners of Stark and Columbiana counties.

Webb is charged with inefficiency and incompetency and on the other hand he makes counter charges that discipline has been interfered with in the home by meddling on the part of the trustees.

Webb, about a year ago, was convicted of assault and battery in connection with the horse whipping of William S. Shaw, was sentenced to 60 days in the workhouse and was pardoned by Gov. Donahay on the day he was to have begun serving his sentence.

He was restored to the superintendency of the home but constant friction has occurred ever since between Webb and employees at the home.

James R. Milner has been placed in charge of the home, pending the probe by Prosecutor McClintock.

Alliance, Nov. 5.—"I have nothing to say," was the answer made by E. E. Webb, superintendent of the Fairmount Children's Home, when queried concerning his action on the request made by the home board of trustees that he tender his resignation.

The request for Webb's resignation is the second made by the trustees in the past ten months. The last one came Monday during a meeting of the board. The first was made last February when the board was reorganized following the death of C. Y. Kay, former chairman.

Mr. Webb flatly refused to resign at the first request and from all indications he will fight this new demand to the last ditch. Mrs. Webb, mother of the home, said this morning, "we are not through yet by any means."

"Let the trustees do the talking for the present," Mr. and Mrs. Webb added in unison as a final statement, "but we will have plenty to say before the matter is settled."

### Take Fifty Stitches In Wind Pipe

Washington, Nov. 5.—Ernest Wright, 35, negro, may wheeze a bit for the rest of his life, but physicians at the Emergency hospital today were confident he would recover.

They performed on Ernest last night one of the most remarkable operations on record—taking 50 stitches in a severed windpipe.

Ernest and his "lady friend" had an argument with a pair of razors. Ernest lost. He was rushed to the hospital near death from loss of blood and strangulation.

The doctors put him on the table, ran a rubber tube down his throat to serve for a windpipe, gave him ether through it, and then took the 50 stitches. The rubber tube will serve as an emergency windpipe until the wound heals.

### SENATOR WHEELER ASKS HIGH COURT TO DISMISS CASE

Acquittal In Similar Case Ends Conspiracy Count Says Senator.

Washington, Nov. 5.—Senator Burton K. Wheeler, (D) of Montana, today asked the supreme court of the District of Columbia to dismiss the indictment against him charging conspiracy to defraud the government in securing oil and gas land permits in Montana.

Indicted with Wheeler were Edwin S. Booth, formerly solicitor of the interior department, and Gordon Campbell, Montana oil operator.

His acquittal in Montana last April of charges of misusing his senatorial office to gain favors at the interior for Campbell was sufficient ground for the court to throw out the present case. Wheeler said. He demanded freedom from trial on charges of which he has already been held not guilty by a jury.

The crime of which he was freed in Montana and the crime alleged in the conspiracy indictment "are one and the same," and the transactions held to be illegal in each are identical, said Wheeler's demurrer, filed by his counsel, Senator Thomas J. Walsh, (D) of Montana, Arthur Garfield Hays, New York, and Charles A. Douglas, Washington.

Walsh, prosecutor of the Teapot Dome inquiry, defended Wheeler in Montana. Hays was of counsel for John T. Scopes in the Tennessee revolution trial.

Aside from the plea of former acquittal, Wheeler attacked the indictment itself, charging a number of alleged irregularities.

Wellington, N. Z., Nov. 5.—Prohibition has been defeated in New Zealand, and incomplete returns today indicated.

### Self-Confessed Teetotallers Practicing What They Preach

Baltimore, Md., Nov. 5.—Prohibitionists practice what they preach. They do not vehemently denounce liquor and then sneak away and take a drink when everybody's back is turned.

These statements came today from a symposium of several hundred college presidents, physicians, large employers of labor, judges and statesmen. The poll was taken by the manufacturers record, which is strongly defending the dry act.

"Hypocrite has been the cry of the 'wets' against the 'drys' ever since the days of local option in the march toward national prohibition," said the record. "This accusation and other false charges and insinuations of like character have usually been ignored and treated with the silent contempt they so richly deserve."

"But for so long have these slurs upon the integrity of prohibitionists gone unanswered that the advocates of liquor traffic have grown bolder and presumably, instead of being

### Unselfishness of Mothers Often A Vice, Declares Woman Novelist

### FEAR OF CANADA TARIFF WAR HAS BEEN DISSOLVED

Ottawa, Nov. 5.—Prospects of a tariff war between Canada and the United States dissolved today, following the announcement that Premier Mackenzie King will continue in office and face parliament.

Had the Rt. Hon. Arthur Meighen and the conservatives taken office it was expected that the tariff war would have opened. Premier King has challenged the house of commons on a vote of confidence, but until he has a seat he can not face the house. There are nine other members of his cabinet without seats. The premier and other members of his cabinet who are without seats will seek to win seats in by-elections.

It is not expected that parliament can meet before Jan. 15.

### KIWANIS TO DINE FOOTBALL SQUAD

While arrangements have not been completed it is understood that an address by some speaker not yet determined will feature the entertainment.

Two weeks from today the club will meet at Perry grange hall in the evening where members and their families will enjoy a social time.

### CONFIDENCE VOTE GIVEN OFFICIALS IN ROAD PROGRAM

Official Count Shows 10,431 Approved Road Bonds, 6,091 Against.

### MAJOR PROJECTS GET FIRST CALL

Program Will Be Completed As Soon As Possible, Asserts Berg.

"The success for the county road bond issue is a vote of confidence for the county commissioners, as we see it," declared Conrad Berg of Leontia, chairman of the board when the official vote was announced by the county election board.

The official count gave the bond issue a majority of 4,340. The vote was: Yes, 10,431; no, 6,091.

"At the end of three years the people of Columbiana county will begin to appreciate what a wonderful program has been worked out, and at such a minimum of cost to the taxpayers," Mr. Berg continued. "It will be the aim of the commissioners to complete the program as announced within the earliest possible time, and the text will be strictly adhered to. By that I mean that no money obtained from the sale of bonds will be spent upon the construction of any road, other than what has long been publicly announced."

Major Projects First  
This money is to be spent upon the 13 major projects as we have advertised and spoken of, while funds obtainable from other sources will be used on the eight other improvement projects.

"It is just a little too soon to announce what road improvement will be undertaken first. However, the major projects will, of course, be given first consideration as have been shown on the two-color maps that were put out during the campaign."

"When out of 16,000 people voting, 10,000 ballots are cast in favor of the plan of the commissioners, it must show that the people have the utmost confidence in the board."

With the state and federal aid available, Columbiana county will have approximately \$2,000,000 to spend in road construction during the next few years, which includes the money that will be available because of the approval of the bond issue of \$950,000.

The lecture by Capt. Donald B. MacMillan, arctic explorer, to be given in the High school auditorium at 8:30 p. m. Saturday, is attracting more than usual attention in Salem, where he has lectured and shown his movie pictures twice, because of his recent explorations with the aid of airplanes.

Scientific specimens gathered by the explorer will be divided among several scientific institutions in the country. Plants, fish and bird specimens were brought back by MacMillan, who returned a few weeks ago.

The lecture will be given under the auspices of the Salem Rotary club for the benefit of the club's crippled children's work. ### Grand Jurors Probing Charge Woman Heads Baby Market

Cincinnati, Nov. 5.—Charges that babies were sold at prices ranging from \$25 to \$35 each to women desirous of offspring but denied them by nature, were being probed today by the Hamilton county grand jury, following disclosures made in a divorce suit filed by Thomas Brummer Samuels, railroad employee, against his wife, Mrs. Helen Samuels, who is alleged to have purchased three babies from an unnamed woman, residing in Covington, Ky., just across the Ohio river from here.

Indictments were expected this week, according to Prosecuting Attorney Bell, who is conducting the investigation.

The woman, according to Bell, maintained offices in the Dixie Terminal building, where she carried on her "baby market" there, he said, evidence thus far gathered discloses that women went and made their purchases of young babies, which were delivered "as the grocery boy brings round a dozen of eggs."

### B Stands For Both So John Uses Auto Tag For Both Cars

John Journey, Salem Heights was fined \$25 and costs Wednesday evening by Mayor Russell on a charge of using fictitious license plates.

Journey first drew police attention when he was arrested on a charge of reckless driving preferred against him by a motorist who alleged the defendant had crowded him from the road earlier in the day.

The mayor dismissed this charge but when it was learned that Journey was using a license issued for a Ford roadster he was asked to account for this and when his explanation failed to meet with judicial approval he was fined.

The man told the mayor he had purchased the roadster from a friend several months ago and had converted it into a truck. The license plates were thrown in for good measure on the deal and Journey under the impression he stated, that the letter B on the tags stood for "both," continued to drive the renovated car with the old tags.

### ANTI-SALOONISTS OFFER NEW PLANS FOR ENFORCEMENT

Wayne Wheeler Advocates Three Measures At Convention.

Chicago, Nov. 5.—The Anti-Saloon League of America convention, which opened its four day session in Chicago today, will be a crisis in the progress of the organization, according to Wayne B. Wheeler, general counsel and legislative superintendent of the league.

The meeting will be second in importance only with the one of 1913, when the drive for prohibition was started. The enforcement of the liquor laws will be the principal subject.

Mr. Wheeler will present his report tomorrow in open meeting and will advocate three measures to be discussed by the convention. He says:

"Our first concern is placing all prohibition agents under civil service. This not only has the endorsement of both political parties and the recommendation of the president, but the practically united support of temperance and civic organizations."

"Another measure we will advocate is that of increasing penalties for violation of the national prohibition act. There is no minimum fine now provided. Some judges have given fines as low as one cent to bootleggers. The proposed measure will provide jail sentences for all offenders."

"The third measure provides for deportation of aliens convicted of violating the prohibition or narcotic act. The house of representatives has twice passed such a measure, but the bill failed to reach a vote in the senate."

"An alien who refuses to become a citizen of the United States and attempts to make a living by violating our constitution should be sent back to the land from which he came."

At this time plans will be discussed for the 1925-26 roll call, which will be put on within the next few weeks.

### OFFICIALS CALLED FOR JURY PROBE

Naturalization Papers Sold To Non-citizens Of Mahoning County.

Cleveland, Nov. 5.—Eight prominent Youngstown officials and business figures were in attendance when the federal grand jury reconvened today.

They had been subpoenaed by Assistant United States Attorney Howell Leuck. The charges of bribery developed when it was learned that naturalization papers were being sold to non-citizens in Youngstown.

Those subpoenaed were J. H. C. Lyon, judge of common pleas court; T. J. Thomas, county prosecutor; Roy Thomas, assistant county clerk; H. W. Powell, chief of police; Charles Harrison, county detective; Guido D. Vernace, deputy county clerk; John D. Vernace, wealthy Youngstown banker, and Savius T. Christian, naturalization officer.

Members of the district attorney's staff refused to divulge any of the details of the case today until the grand jury has returned an indictment.
